Subject: RE: Sepulveda Basin Vegetative Management Plan (UNCLASSIFIED)

Classification: UNCLASSIFIED  
Caveats: NONE

Thanks Muriel for your comments.

The overall intent is to comply with Corps' policy regarding the Dam structural integrity and improve the safety of the area by eliminating hiding places for lewd activity and homeless camps, and reduce crime in the area by making the area more visible to LAPD patrolling the area. This is going to be at least a five year process and nothing is going to be implemented quickly due to funding resources and labor resources. Corps' policy directs us towards a sustainable and viable "landscape" to meet the threat of future climate change. This is going to be an on-going learning process as we move forward with more and more financial constraints on what we can do.

Please address all further correspondence directly and only to Mr Al Moreno, who is the Project Manager for Sepulveda Basin.

Thank you, Debbie
